- 14.00 pm - 17.00 pm

Description

Established in 1960 as a research-design institute for automation, IPA SA has kept until now its main profile: **research & development, design, production, assembling, service and consultancy of automation and IT equipments and installations, in industry** (chemistry and oil processing, metallurgy, building materials, energy, machines building), **environmental protection** (emission/imission control, toxic emissions, meteo-hydro parameters monitoring), **services for citizen** (public information system, lighting up control of landing/ take-off runways, seismic parameters monitoring, barrages survey, security and fire alarm systems).

After 1990, IPA has become a trading company on shares, maintaining its profile. Since 1997, IPA has a flexible structure, becoming more efficient and more profitable. **At the present time, IPA is an integrally private company**, which has implemented and maintains a **quality system** according with the **SR-EN-ISO standards**.

Through its **subsidiaries** situated in the main cities of Romania (**Cluj, Craiova, Galati**), IPA SA successfully covers the Romanian territory in its field of activity.

IPA SA deals mainly in R & D activities, in Romanian national programs and internationally (FP6, FP7, CIP, TTQM-PHARE, EUREKA, Leonardo da Vinci etc.) financed projects.

IPA has initiated and organizes international conferences/symposiums, such as: **E -COMM- LINE** (Bucharest, annually), **AQTR 2 (THETA 16)** (Cluj- Napoca, one in 2 years), **SINTES** (once in 2 years). **Open Forum for Innovation and Technological Transfer** (Bucharest, annually), **H2 FUEL CELLS MILLENIUM CONVERGENCE** (Bucharest, annually) and participates at the most important **fairs and exhibitions local and international**.
