Bilateral Meetings

- 09-00 am - 12.00 am
- 14.00 pm - 17.00 pm

Description

TOMI is an urban interactive device for both indoor and outdoor use, based upon a self-sustainable business model. The innovative approach is based on the mix between technology, contents, business and services to citizens. Available 24h a day, TOMI is an elegant piece of urban furniture, with a modern and discreet design, easily fitting into a context of contemporary architecture, green areas and within historical or monumental surroundings. It is a giant tablet that provides every information required by both local residents and visitors.
